

Mooring Seminar:

How to deliver complex greenfield mooring installations

Wednesday, 30th September 2026

08:15 - 08:30	Arrival and registration
08:30 - 09:00	Welcome and industry context Trends shaping today's permanent mooring market including addressing deeper water and increasingly complex site conditions. <i>Speaker: Nick Knight, Head of Business Development, Intermoor</i>
09:00 - 10:00	Vessel certainty and flexibility: what it means for complex greenfield installations Collaborative vessel strategies, including alliance approaches that provide greater flexibility and certainty for floating offshore installations. <i>Speaker: Alex Dawson, Head of Projects, Intermoor</i>
10:00 - 10:30	Coffee break and networking
10:30 - 11:30	Technology Spotlight • Station keeping: Optimisation of vessel positioning to minimise non-productive time for station keeping and heading control operations. <i>Speaker: Stuart Brazewell, Engineering Manager, Intermoor</i> • In-line tensioning operations: Analysis and operation of in-line tensioners for deep-water mooring projects. <i>Speaker: Jonathan Brown, Engineering Technical Authority, Intermoor</i>
11:30 - 12:00	Open industry discussion
12:00 onwards	Networking lunch
