

Key Features:

- Anodised aluminium construction
- Polycarbonate lids to enable visual inspection of fluid
- Optional analogue volume sensor

Kystdesign 10 Litre Compensator

IHPU / DWP and Accessories

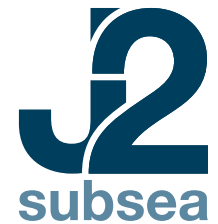

The 10 litre Kystdesign compensator is a positive pressure compensator manufactured from anodised aluminium.

Fitted with a polycarbonate lid, it allows for visual inspection of the fluid, an optional analogue sensor allows remote monitoring of the fluid volume.

Specifications

Dimensions	Length (without volume sensor)	467mm
	Length (with volume sensor)	596mm
	Width/diameter	290mm
Weight	Weight (empty)	19.5Kg
Material		Anodised aluminium
Pressure Empty		0.25 bar
Pressure Full		0.35 bar
Active volume		9.43L
No off hyd. Connection ports		4 (3/4 BSP)
Max operational pressure		1.5 bar

System Components
