

## Key Features:

- Compact unit
- Robust and proven design
- Allows the use of rigid hosing
- Highly reliable
- Heavy payload capacity

## Tritech PT3636-C

### Camera Booms and Pan & Tilts

The Trittech PT3636-C hydraulic pan and tilt unit has been designed to eliminate a number of potential weak points that were identified on other hydraulic pan and tilt units.

Designed to be rugged, compact and reliable the PT3636-C is the ideal solution for use on subsea vehicles, where the harsh working environment tests equipment reliability to the limit.

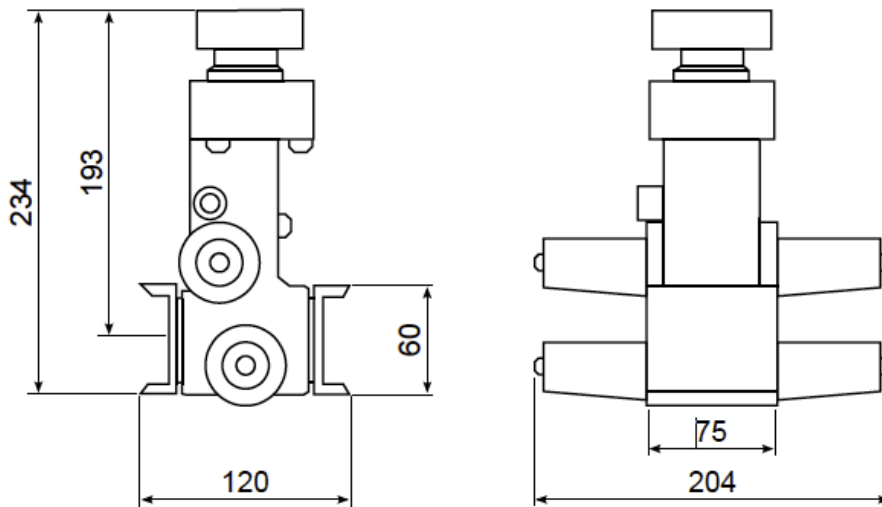

# Tritech PT3636-C

Camera Booms and Pan & Tilts

## Specifications

<b>Dimensions</b>	Height	234mm
	Length	204mm
	Width	120mm
<b>Function</b>	Pan	360°
<b>Weight</b>	Weight in air	4.1Kg
	Weight in water	3.1Kg
<b>Material</b>	Cast aluminium, anodised aluminium, stainless steel
