

Engineering, analysis and technology development

Claxton, a Cutting and Decommissioning brand in Acteon's Energy Services division, brings our clients' visions to life with customised engineering solutions for the energy industry. Our team of experts leverages their expertise and innovative technology to provide designs and analysis that ensure the efficiency and safety of operations. Trust us to deliver exceptional results that meet specific needs and exceed expectations.

Capabilities

Claxton specialises in providing innovative and cost-effective solutions. Our team of experts have extensive experience in the industry and are dedicated to delivering high-quality results.

- **Engineering design and analysis:** We offer a full range of engineering design and analysis services, including conceptual design, detailed design, 3D modeling, stress analysis, and equipment selection.
- **Project management:** With a proven track record of delivering projects on time and within budget, Claxton's project managers work closely with clients to ensure their requirements are met and to minimise any disruptions to their operations. Our flexible approach to project execution allows us to embed our team members into client offices to increase efficiencies.
- **Research and development:** At Claxton, we provide research and development capabilities for our clients, effectively becoming their research arm. Our team of experts leverages their extensive experience and knowledge to support clients' R&D efforts and drive innovation in the industry.

- **Consultancy:** Our consultancy services provide clients with independent and objective advice on their projects, from feasibility studies to troubleshooting and risk assessments. Our experts bring a wealth of experience and knowledge to every project.
- **In-house machining and fabrication:** Our in-house machining and fabrication capabilities allow us to deliver products on a short timeline and provide installation services to ensure a seamless transition from construction to operations.

At Claxton, we are committed to providing the highest quality services at competitive prices. Our goal is to exceed our clients' expectations and to build long-lasting relationships with them. With a proven track record of delivering successful projects in the oil and gas sector, Claxton is the trusted partner for all engineering and analysis requirements.
